

Going on safari

Vocabulary

Big Question: Could a tiger come to tea?

A safari is a trip that people take to see animals in their natural habitat. Lots of people like to go on a safari in a continent called Africa to see animals such as lions in the wild.

Safari at home

Some zoos replicate a safari by showing their animals whilst visitors drive in their cars. During this topic, we will visit Knowsley Safari Park.

Safari

A trip that people take to see animals, usually in a jeep.

Habitat

A place where an animal lives, sleeps, eats. It's their home.

Desert

Land covered in sand with very little water. It is very hot in the day time and very cold at night.

Rainforest

A forest with lots of trees. It rains every day and can be found in hot places.

KEY CONCEPT

Nature

Understanding the complexities and features of the natural world, including the plant and animal species that inhabit it.

Habitats

Different animals have different habitats, such as deserts, rainforests, oceans, polar regions. If you were to move an animal to a different habitat, it might not survive (live). Some animals live together, such as wolves, and some are solitary, such as tigers.

Tigers

Tigers live in rainforests and snowy climates. This is their habitat. You can find them in the wild in a continent called Asia. Tigers are a carnivore which means they eat meat. Tigers are fierce and they hunt for their food.

Vocabulary

Carnivore

An animal that only eats meat.

Herbivore

An animal that only eats plants.

Omnivore

An animal that eats plants and animals.

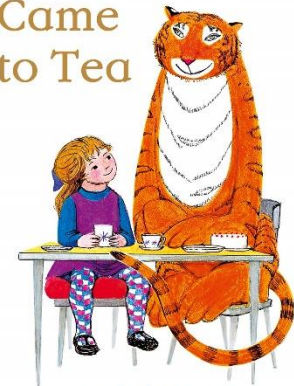

Solitary

An animal that is solitary lives on its own.

Tiger

A big cat that has orange and black stripes.
